- **Covid protocols** in place for risk mitigation, with experienced staff who manage daily out of school care programming during the school year.

What differentiates us from other programs?

Through an amazing system called **Belief Re-patterning**, each of our staff members is trained to teach your child **HOW to think positively!**

This simple system was created by a teacher to teach the subconscious mind to automatically keep a positive mindset and attitude.

Our programs teach children Belief Re-patterning life skills that will set them up for success!
